Blindside

ILLUSTRATIVE SAMPLE REPORT | FICTIONAL SHIPMENT

This portfolio example demonstrates preparation logic. It is not a production export, carrier determination, rate quote or record of a real shipment.

1 / CHECK MY FREIGHT

2 pallets • 900 lb total
Dimensions unconfirmed • Residential delivery • No delivery dock

2 / BLINDSIDE CHECK

Three items require clarification before booking: packaged dimensions, residential service requirements and unloading arrangements. No freight class, charge amount or carrier rule is calculated in this example.

3 / YOUR DEFENSIVE PLAY

Confirm dimensions
Measure the packaged shipment, including the pallet. Preserve dated measurements and photographs. Request the applicable carrier measurement requirements.

Confirm residential service
Verify destination type with the receiver. Preserve written confirmation of the address and quoted services. Request the applicable residential service terms and charges.

Confirm unloading arrangements
Ask how the receiver will unload the freight. Preserve written confirmation of available equipment and requested service. Request liftgate availability, restrictions and applicable charges.

WHAT HAPPENS NEXT

The agent verifies the facts and obtains the applicable carrier guidance before deciding whether to change the booking or request additional services. This example ends at a preparation plan; it does not claim a completed verification or financial outcome.

General preparation guidance only. No savings, avoided charges or successful disputes are claimed. Fictional sample prepared October 13, 2026.
